PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/031,056	Applicant(s) NEIL ET AL.	
	Examiner Sumaiya A. Chowdhury	Art Unit 2623	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-11 have been considered but are moot in view of the new ground(s) of rejection.
2. Applicant's arguments filed 7/12/07 have been fully considered but they are not persuasive.

(a) Applicant argues "Alexander neither discloses nor suggests..." on page 5 of the Remarks.

The processor determines whether the channel grid or program grid has been highlighted and displays the corresponding program in the PIP window accordingly. - p. 12, line 35 – p. 13, line 5, p. 3, lines 18-30. After the "lock" status is selected, the last channel to which the tuner was set in the PIP continues to be displayed regardless of the functions selected by the viewer. The claim as recited does not preclude the user from selecting the "lock" status. As such, Alexander reads on the claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Alexander (WO 99/04561).

As for claim 1, Alexander teaches a method of processing a program guide, comprising the steps of :

determining whether a channel grid has been highlighted (The processor determines whether the channel grid or program grid has been highlighted and displays the corresponding program in the PIP window accordingly. - p. 12, line 35 – p. 13, line 5, p. 3, lines 18-30);

determining whether a program grid has been highlighted (p. 3, lines 18-30);

displaying, in response to the previous determining steps, program content of a program currently being received by a channel indicated by the highlighted channel grid, if a channel grid has been highlighted and continuing to display same program content, in response to the previous determining steps, if a program grid has been highlighted (After the "lock" status is selected, the last channel to which the tuner was set in the PIP is continued to be displayed regardless of the functions selected by the viewer. Otherwise, in the "unlock" status, the program highlighted by cursor 36 in grid guide 22 is displayed if the grid guide is displaying currently telecast programs and the last currently telecast channel that was highlighted is displayed if the grid guide is displaying future programs (Fig. 1). [p. 4, lines 11-21, p. 17, lines 24-26]);

As for claim 2, Alexander teaches wherein the program content is displayed in a video window (12 – Fig. 1; p. 4, line 5).

As for claims 3 and 8, Alexander teaches wherein the video window or display window (12 – Fig. 1) is shown along with the program guide (22 – Fig. 1; p. 4, lines 3-21).

As for claim 4, Alexander teaches wherein the determining steps are entered into in response to a user selecting a user selectable option (p. 4, lines 11-20).

As for claims 5 and 10, Alexander teaches wherein the channel grid comprises channel name (ABC, FOX, etc. – Fig. 1).

As for claims 6 and 11, Alexander teaches wherein the program grid comprises program title (Prime Time Live – Fig. 1).

As for claim 7, Alexander teaches an apparatus, comprising:
a user control device (26 – Fig. 1; p. 3, line 18-19);
a display window for displaying a video program (12 – Fig. 1; p. 4, line 5);
a control means (processor) for displaying a program guide (22 – Fig. 1); and
wherein the control means providing a first mode of operation in which when a channel grid is highlighted by the user control device, the display window will display

program content of a program currently being received by a channel indicated by the highlighted channel grid; and a second mode of operation in which when a program grid is highlighted by the user control device, the program content of the display window does not change (After the "lock" status is selected, the last channel to which the tuner was set in the PIP is continued to be displayed despite the actions carried out by the viewer. Otherwise, in the "unlock" status, the channel highlighted by cursor 36 in grid guide 22 is displayed if the grid guide is displaying currently telecast programs and the last currently telecast channel that was highlighted is displayed if the grid guide is displaying future programs (Fig. 1). [p. 4, lines 11-21, p. 17, lines 24-26]);

As for claim 9, Alexander teaches the control means enters into the two modes of operation in response to the user control device (p. 4, lines 11-20).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
